COCON >>>

Intelligent Manufacturing of Life Technology.

Zhejiang Jiukang Electric Appliance Co., Ltd is an electric appliance enterprise that produces high-quality technology transformation results based on the creation#R&D#design#.

Jiukang takes precision work and intelligent manufacturing as its basic point, and through decades of technical accumulation, cooperates with many universities in China to transform and apply the recent technological achievements into life scenes.

Each product of Jiukang has accumulated long-term research and development and integrated the quality of technology into the core to form a household appliance that truly fits into modern life.

INTELLIGENT
GAS STOVE
NATURAL GAS

Tempered glass panel
Big firepower 2-burner stove

Jiukang intelligent fireproof tempered glass built-in gas stove is a sophisticated gas stove granted with many US patent designs. It is featured by the high-sensitivity intelligent flame retardant design and the upper air intake burning mechanism. The stove is automatically extinguished when detecting over-temperature or long time no operation, which guarantees kitchen safety. The upper air intake burning mechanism and the unique air intake principle realize unobstructed air intake and allow natural gas and air to burn sufficiently, thus ensuring use safety.

GOLi HIGH SPEED BLENDER

GOLi GOLi high speed blender, bring brand new nutrition change for family life

The high speed blender meets various needs in kitchen since integrates many functions. With speed as high as 30,000 rpm, it can break food cell walls instantly. Meanwhile, the upgraded innovation process ensures noise falls below 70 dB at work, so people can feel more comfortable in the kitchen. The sophisticated craftsmanship allows the high speed blender to process many ingredients like turtles and ribs without damaging their nutrients. The high speed blender adopts the top-level blender technology and breaks the traditional methods.

3 COCON

BUILT-IN 2-BURNER RADIANT COOKER

Intelligent heating tool assuring all the time
Lasting safety takes care of healthy life

The built-in 2-burner radiant cooker exclusively gains the grant of United States Utility Patent. The infrared heating principle makes food processing safer and more convenient. Unique function to prevent spontaneous combustion of edible oil, the cooker is powered off automatically if it is overheated or not turned off forgetfully. The radiant cooker can also extinguish automatically when detecting no operation for long time, and this can prevent overheat.

Accurate temperature control

Automatic power-off

Big and small burners

Assuring cooking

Infrared, no-open-flame cooking, accurate temperature control

Big and small burners fit various types of pans

Automatic power off upon detection of long time no operation

Elegant kitchen utensil, assuring cooking

4 COCON

PORTABLEble>>>
NON-STICK FRY PAN

Exquisite and durable household cookware,
guard health of one generatio

The Jiukang non-stick fry pan is light and allows one-hand operation. Adopts unique Japanese processing technique and compound material technology. The non-stick technology guarantees the pan not sticky for more than 5 years and heated uniformly, offering comfortable cooking experience. In addition, its performance is superior to common fry pans.

- Persistent non-stick
- Scrape at the bottom dry
- Worry-free when you stir-fry
- use only one hand

12 COCON ICED COFFEE MACHINE

One-Press Operation
Enjoy ice and freshly brewed coffee fast with compact 700-Watt coffee maker. The one-press operation allows you to quickly and easily brew refreshing iced coffee or flavorful hot coffee exactly how you like it in less than 4 minutes.

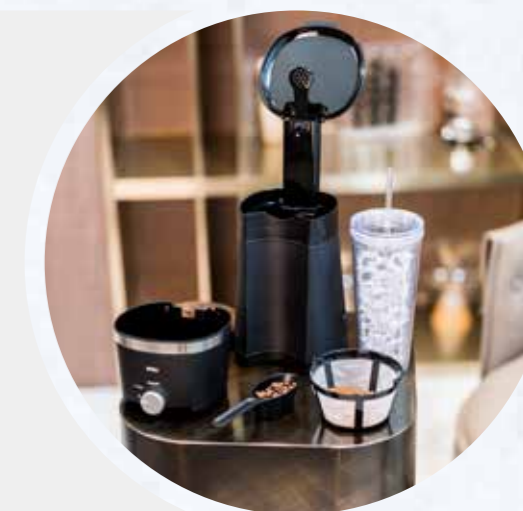

Durable Tumbler
Long-lasting reusable iced coffee cups with lids and straws that helps reduce consumption of single-use plastic cups. Double-wall insulated design keeps drinks cold longer compared to glass or single layer plastic ice coffee cups.

Easy to Brew & Customize
Make refreshing iced coffee at home is so easy—just add water and coffee grounds to the coffee machine, ice to the tumbler, then press the button to brew coffee. Customize with your favorite flavorings and milks for the perfect, delicious iced coffee you love.

Capacity: 10 Ounces
Color: BLK/WHT/RED/GREEN
Coffee maker type: Drip Coffee Machine
Material: Plastic
Filter Type: Reusable
Specific Uses For Product: Home Coffee Maker
Wattage: 700 watts
Voltage: 120/230 Volts
Model Name: CMI1010/1012
Human Interface Input: Buttons
Package Dimensions: 14.21 x 9.84 x 7.36 inches
Item Weight: 3.32 pounds
